Primary Products

- MIL-I-5015 Connectors
- MIL-I-38999 Connectors
- MIL-I-39012 Connectors
- MIL-I-17D & 17E Cable
- Wiring Harnesses
- Semi-rigid cable assemblies
- All Cable Assemblies
- Bus Conductor
- Lead Electrical Assemblies

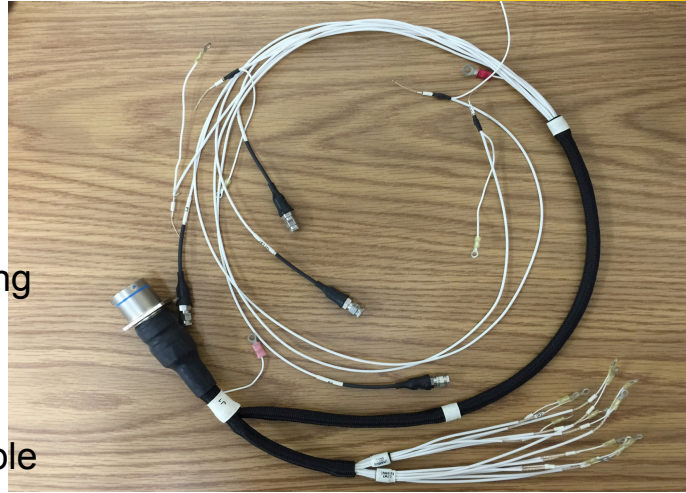

High Performance Semi-rigid

- EPTFE dielectric remains stable over repeated exposure to soldering temperatures
- Options through 40 GHz
- Diameters from 0.047" to 0.500"
- Available as cable lengths or finished assemblies
- Model shop available to handle design of prototype assemblies

Test Assemblies

- Options through 40 GHz
- Variety of connector styles including 2.4mm, 2.9mm, 3.5mm, and 7mm
- Rugged cable constructions with reinforced tapered boot strengthens cable/connector interface while ensuring max flexibility
- High compression strength and very good resistance to abrasion
- Phase and amplitude matching available

Low Loss Flexible Assemblies

- Low Loss options through 40 GHz
- Diameters from 0.09" to 0.530"
- Durable cable construction
- Wide variety of connector styles and configurations
- Low VSWR performance
- Multiple ruggedizing and armoring options
